From Alpha Company 2-104th (Black Sheep) a tremendous thanks! Thank you so very much for the numerous bottles of lubrication to help keep our weapons running in these absolutely awful conditions. I run your lube on my personal weapons at home, particularly the ones I carry every day to keep myself and my loved ones safe. I trust your product to keep them working at home and now I trust them to keep them functional abroad. The Black Sheep truly appreciate your personal sacrifice recognizing that the cost of those products come straight from your company's pocket. You are a great American and what you do means so much more to us then the thousands of "support our troops" magnets on cars around America, and similar superficial gestures.

In short thank you so much from me, Eli, and from the Black Sheep!
